TACT-2 program

Therapeutic Aggression Control Techniques is a comprehensive crisis intervention program designed to help staff develop the skills and judgment to:

- (1) Distinguish between emotional crisis and deliberate misbehaviors.
- (2) Skillfully de-escalate emotional issues and calmly manage deliberate problems.
- (3) Safely control dangerous situations with safe escorts and restraints (requires full training).

"The value of the class is in how well you are prepared to not use a physical restraint, but to prevent one."

Jaimie Kassman, Director
McCann Treatment Center, Bethel, Alaska
