

TACT2 Training of NEW Trainers

**June 21-24, 2021
Easton, PA**

Mon-Thur, 8:30AM - 4:30PM daily
Led by the author, Dr. Steve Parese

**Colonial Intermediate Unit #20
7 Danforth Drive Easton, PA**

TACT2 program

Therapeutic Aggression Control Techniques is a comprehensive crisis intervention program designed to help staff develop the skills and judgment to:

- (1) Distinguish between true emotional crisis and functional, deliberate misbehavior.
- (2) Avoid power struggles and anger traps.
- (3) Better understand trauma-related behavior.
- (4) Skillfully de-escalate emotional issues.
- (5) Effectively manage deliberate misbehavior.
- (6) Safely control dangerous situations.

"I am pleased with the information and instruction that I received this week. I feel confident in my ability to train my staff. This was a great investment of my time and energy. Thank you for such a successful training."

Tyron Hurst, Director
High Roads School of Philadelphia

Instructor Certification

with the author, Dr. Steve Parese, will provide you with the skills, knowledge, and materials needed to immediately train your school, shelter, or group home staff in the TACT2 crisis intervention program.

You must present proof of full COVID-19 vaccination to participate in physical skills training.

TACT2 Training during the Era of COVID-19

Safety and competency are our two highest priorities. By registering for this training, you acknowledge your understanding of and willingness to comply with the following guidelines. They are designed to make our time as safe and successful as possible, and to assure that certified TACT2 Trainers are truly able skillfully instruct others in this crisis intervention program.

1. COVID-19 safety protections. It is essential that we keep one another safe. To that end, we ask for your cooperation with the following safety procedures. Participants who do not abide by these guidelines may be asked to leave the training with no refund.

- (a) Mandatory masks except when instructing from at least 8' away;
- (b) Daily temperature screening and health self-report;
- (c) Regular hand sanitizing and washing; and
- (d) Regular surface disinfection.

2. Proof of Vaccination. Only those individuals who can provide proof they have been fully vaccinated against COVID-19, or who can provide proof of a negative COVID-19 test within the previous 5 days will be allowed to participate in physical intervention training. Participants who cannot provide this proof will not be allowed to attend the physical portion of the training.

3. Verbal competencies. It is not necessary for participants to be clinicians or experienced teachers to be a good TACT2 Trainers. However, the training does require individuals who
(1) Understand basic concepts of child and adolescent psychology and listening skills; and
(2) Are reasonably comfortable in front of a group of peers. Trainees will be asked to participate actively in all discussions, team teach a 20-minute segment of the curriculum, and pass a 25-question test at the 80% level. Those who do not meet these requirements cannot be certified to train others in TACT2.

4. Physical competencies. Nor is not necessary that participants be accomplished athletes to be certified as instructors in TACT2 physical techniques. However, the training is rigorous, and requires that participants be in reasonably good physical condition and free from serious mobility issues or other health concerns. Trainees will be asked to practice assertive physical techniques with increasing levels of resistance, and to complete an individual skills check at the end of the training. Those who cannot master all techniques will be limited to teaching only those techniques they HAVE been able to master, although there may be opportunities to upgrade certification at a later date if skills improve.
